## DAILY GAZETTE.

Interesting from South Carolina.

Statement of the Teacher who was sent out of the Palmetto State, with his passage paid.

To the Editor of the Boston Journal: I noticed in your paper of last evening an article on my return home from South Carolina. The impression left by it was mainly correct. One or two inaccuracies I might notice. I should prefer, however, if one case out of many is sufficiently interesting to your readers, to give them a more detailed account of the treatment I received. I shall thus answer questions which will be asked me a thousand times once for all, and more correctly than rumor would

I arrived at Blackville, ninety miles from Charleston, at 8 o'clock on Monday evening, Nov. 5. Stepping upon the platform, I was almost immediately surrounded by a group of young men. Finding that they were a Vigilance Committee, I answered their questions until they asked, What are your political onlinions? Are you in favor of political opinions? Are you in favor of Mr. Lincoln's election? My answer was, I beg your pardon, gentlemen, I have nothing to say to you on political matters. They asked me to stop—examined my trunk and asked me to stop—examined my trum and a chest containing my library, until late Monday night, and for an hour or two Tuesday morning. The examination was conducted with politeness and delicacy. They found little against me—nothing, as they found in the materially changed their told me—which materially changed their impression. However, I was a northern man—that was sufficient. The chief of the wisilance committee told me privately that such was the feeling that were it not for several circumstances, "I should not have been let go with a whole skin." However, they would sand me home safe, pay my passage, and keep my books until the money was refunded. was refunded.

This feeling, so strong then, gradually changed. A feeling sprung up and gained ground that I should be sent on to my employer. The meeting broke up without being able to agree. I was informed of this by one of the members, who advised me to proceed. I teld him no. I'm not going to run away. I was stopped officially, and I must have official notice that I may leave. This I presently received. Thus the storm, I thought, had pussed away.
At Barnwell, ten miles distant, I enjoyed

the hospitality of the Baptist minister. In the afternoon my employer (from a neighboring town) called. While conversing with him I was unexpectedly waited upon by a gentleman who wished my attendance in the village. We proceeded to the court house. I shall not be likely to forget that occasion; many circumstances invested it with interest. It was Barnwell court house, from which, years ago, under memorable circumstances they sent away the venerable Judge Hoar. It was an assembly composed of the most respectable men of the place. There were the educated men, one minister (et least) and the place of the place of the place. (at least) and the physicians of the town. There were the principal slaveholders, and a large planter of 5,000 acres sat in the chair. The proceedings were parliamentary and courteous throughout. I stood at the table—(a little Massachusetts man, the shortest, I believe, in my class at Harvard)—and interrogatories were put me one by one. What were my sentiments on slavery, its extension, Mr. Lincoln's election, the higher law, irrepressible conflict, &c., &c. I answered them fairly. When I could reply with effect, I did so; when I could not, I dealers the sentence of of the most modern styles, and suited to the full trade. Amongst her superh assortment may be found a large variety of French and American Flowers, now French and American Flowers, account of the ladies to her stock of Bennets, consisting of Plain, Black and Spotted Cobings, Pedals, Tuscan, &c. Ladies elegant Promenado and riding Hats, Cloth and Felt ditto, Zoutages, &c. I declined to answer. Speeches were made—for and against. All expressed their ad-

ey on the spot to pay my expenses home. Thus far I had met only conrecons and considerate treatment. After a day spent under the roof of Rev. Mr. Perry-himself a slaveholder—I returned to Blackville. ment in this city.

DISS REYNOLDS.

DISS REYNOLDS.

Satisfaction of the results of t to cut off my ear. A pretended friend of-fered me a pistol, told me I should need it before I reached Charleston. Of course, I declined it. At Bambergs, where they hanged a man shortly before, the fellow went out and called the vigilance committe, several of whom entered and seized me, and endeavored by main strength to force me from the car, to hang me. I had good hold. and they couldn't move me, but they tore my coat badly in the struggle. The cars, moreover, were starting; they tried in vain to get them stopped, and were forced to desist. The conductor quietly extended all the protection, as I think, which he thought sofe for him to safe for him to do.

Arriving at Charleston, he procured mean officer, who conducted me to the guard house. It was not safe, the chief of the police told me, to go aboard until the boat was about to start. They congratulated me on my narrow escape. Next day the officer atlended me to the boat.

Here ends the story. It is only just to say that in addition to the election and se-cession excitement, the people have been exasperated by several cases of well poisoning and slave arming. But extreme abolitionists are not the only northern men who have fanned the excitement. The editors of those journals north, who have misrepresented the designs of the republican party have done quite as much, I think, to produce the result. What mischief-makers I Even the personelle of the republican candidates has been misrepresented. Why, in South Carolina they really believe that Senator Hamlin, Vice President elect, is a mulatto

If I have not already left the impression, I wish to state that I have the best reasons for saying that my return is owing to no imprudence on my part. I could not change any act done or recall any sentence uttered before the two vigilance committees. I say this for two reasons: 1. In justice to my self; 2. To show that no northern man with northern principles, however prudent and well-intentioned, is wanted in South Carolina to-day; I was told that distinctly many

Such, Mr. Editor, is a brief but fair account of my reception in South Carolina and my return home. I have at last reached a state where I can express openly the suppressed joy and satisfaction which I felt on South Carolina ground, on hearing that a new and better era has begun in our history.

Yours truly,

Mr. L. Moses—Dear Sir:—Having had in constant use for nearly a year, a set of Lent's Patent Bed Springs purchased to you, "I am prepared to recommend the same as the best arricle of the kind which has over come under my notice. In fact it is the first and only bed spring I have been willing to use. Besides being exceedingly comfortable, it is at once simple, cleanly and durable. Its use, moreover, is condusive to health, as it enstains the mattrass in such a way as to expose its under surface at all times to a free circulation of air.

THE above are First Class, justly popular, and prompt paying companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvenoy and reliability and honorable dealing, they have but few equals, and no superiors. They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, in fines of railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, in times of ponic, as the experience of the past tenches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing partial and one-sided statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital trace the amount, and in most instances four times, needed for the reinsurance of all their risks. To the Editor of the Boston Journal: I noticed in your paper of last evening Preight,

H. B. PATTISON, Agent. I arrived at Blackville, ninety miles from Trains leave Janesville for:

Madison and Prairie du Chien,

" Charleston, at 8 o'clock on Monday evening, Nov. 5. Stepping upon the platform, I was almost immediately surrounded by a group Milwankee and Way, of young men. Finding that they were a Monsoc and Way, Fraight, Wigilance Committee, I answered their Monsoc and Way, Monroe and Way,

My answer was, I Madison and Prairie du Obien, Pass, beg your pardon, gentlemen, I have nothing Monroe and Way, to say to you on political matters. They Mailson and Prairie du Chien,

asked me to stop—examined my trunk and a chest containing my library, until late Monday night, and for an hour or two Tues Milwaukee and Way,

Returning, arrives here at 4.20 P M, bringing the jusesuggest from Beloit, Belviders, &c.
Preight must be delivered at the freight depot by 2
oblock B M to inverse shipment the same day day morning. The examination was conducted with politeness and delicacy. They found little against me-nothing, as they told me-which materially changed their impression. However, I was a northern man-that was sufficient. The chief of the vigilance committee told me privately that such was the feeling that were it not for several circumstances, "I should not have been let go with a whole skin." However, Galena and Chicago Union Railroad.

I thought, had passed away. At Barnwell, ten miles distant, I unjoyed the hospitality of the Baptist minister. In the afternoon my employer (from a neigh-boring town) called. While conversing with him I was unexpectedly waited upon in the village. We proceeded to the court house. I shall not be likely to forget that particularize, as every article messary to constitute a from which, years ago, under memorable will be found in their warercoms. Several Bonnots are mule daily in their work room by and under the direction of the most respectable men of the place. There were the educated man one priniter. There were the educated men, one minister (at least) and the physicians of the town. There were the principal slaveholders, and a large planter of 5,000 acres sat in the chair. The proceedings were parliamentary and comteous throughout. I stood at the table-(a little Massachusetts man, the shortest, I believe, in my class at Harvard) -and interrogatories were put me one by one. What were my sentiments on slavery,

its extension, Mr. Lincola's election, the higher law, irrepressible conflict, &c., &c. answered them fairly. When I could reply with effect, I did so; when I could not, I declined to answer. Speeches were made—for and against. All expressed their admiration at the able and honest manner in which I had borne myself throughout,-Many who did so, said that convictions of duty compelled them to vote against my stay. The vote stood 22 to 9. The vigil ance committee generously raised the mon-

ey on the spot to pay my expenses home.

Thus far I had met only courteous and considerate treatment. After a day spent fusal to answer his questions, drew his knife to cut off my ear. A pretended friend of fered me a pistol, told me I should need it OF EVERY DESCRIPTION: from the car, to hang me. I had good hold,

attended me to the boat. Here ends the story. It is only just to say that in addition to the election and secession excitement, the people have been cession excitement, the people have been pool:

exasperated by several cases of well poisoning and slave-arming. But extreme abolitionists are not the only northern men who steerage.

Such, Mr. Editor, is a brief but fair account of my reception in South Carolina and my return home. I have at last reached a state where I can express openly the Carolina Carolina and my return home. This feeling, so strong then, gradually changed. A feeling sprung up and gained ground that I should be sent on to my employer. The meeting broke up without being able to agree. I was informed of this by one of the members, who advised me to proceed. I teld him no. I'm not going to run away. I was stopped officially, and I must have official notice that I may leave. This I presently received. Thus the storm,

Condition of Wisconsin Banks.

The Madison Argus of yesterday says: the subject of very constant and grave com- term of court. ment. We understand that in pursuance 15th inst., to make good their several supreme court decision, after whichamounts caused by the depreciation. They did so, many returning currency. By law, he cannot make a similar call till sixty days have elapsed. By that time, things will have assumed a definite shape, and the legislature will be in session, so that some effective method, if possible, may be devised to sustain the credit of our currency."

The circulation of Wisconsin banks on the 1st of August was \$4,135,218. Since that time no material change has taken place. The security for this is as follows: Mil. & Wat. R. R. 8's..... 456,000 Tennessee 6's. 691,000
Virginia 6's. 179,000

Total.....\$5,018,376 It is not at all probable that any of the Southern States whose bonds are held by our banks will enter into the scheme of secession. Certainly Missonri is as sound on that question as any state in the Union. No alarm should be felt on that account. The Chicago Tribune says: "Most anxiety has been felt in regard to Missouri bonds, but we are assured by a gentleman who has ple time to maintain the honor of the state." Before the sixty days have elapsed when

the bank comptroller can again call upon depreciation, the panic will have subsided. cates, which was adopted. banks will not meet their obligations of allowing \$188.14, for the support of Isaac directly, but foreseeing that it must be done, promptly. Up to this moment we have not Brown, a lunatic from this county, to the they want us at the north to let them down heard a rumor prejudicial to their sound- superintendent of the Bloomingdale asy. as easily as possible, as may be seen by the slmost unanimously adopted. The Post says: and we may guess from what we do know adopted. of our own money matters, and the false quotations of it abroad, that it may be the same with what brokers are pleased to call uncorrent money of other localities. We believe the whole panic has been got up by interested speculators in money and stocks; and as long as the people will consent to become their dupes, so long we shall have back, and a motion to lay it on the table panics in the money market.

We again advise our friends every where to keep cool, and refuse all sacrifice upon their currency. Remember that every dollar presented to our Wisconsin banks during the panic of 1857 was redeemed, while millions were lost in consequence of the failure of eastern banks.

A FALSE STANDARD .- The Madison Patriot cites the recent fall of stocks in New York, as illustrating "the value of the almighty nigger, and the benefit of Lincoln's ported in favor of allowing several bills, election." It continues-"It is estimated that the country has already lost, in depreciated stocks, no less than twenty-five millions of dollars. The republicans, no doubt, have accomplished a great strike for "freedom, but as a question of dollars and cents (sense) it is questionable whether the country is any better off-especially if one half of the Union quit us in a huff."

The idea that the rise or fall of stocks in Wall street is any indication of the in- jurors, grand and petit, for the ensuing crease or loss of the real wealth of the year. country is fit only for electioneering clap trap. The loss or gain of \$100,000 at a faro bank is just as good evidence of the Adopted. loss or gain of property as the rise or fall of stocks in the New York stock board involving a change of that amount of money. The stock brokers of Wall street are nothing more or less than a legalised band of to \$39,700. gamblers. Their position enables them to inflict a greater degree of injury than the men who bet on the turn of a card; and were it not that they sometimes affect other holders of stock who may be compelled to the operators would be entitled to no more consideration or sympathy than the unlucky venturers on the "tiger." Let Them Down Easy.

The fiery spirits of the south have been able, by twenty years of gasconade, to persuade a portion of the southern people that a small minority in those states can dissolve the Union. "A friend who lived many years in a slave state south of Virginia, who once owned a plantation and negroes there, and whose children were all born there, said to us as we were writing this article: "I know the South well. I have been a citizen of the South and a slaveholder, and am sure that f nothing is done to increase their irritation while they are chafing under defeat, this excitement will soon subside. I have just written to a distinguished friend of mine in that part of the country, whose name I must not give, to inquire what, in his opinion, will be the end of all this. His answer was, 'It will end as all such things at the South have ended; but you must let us down easy. Patience and good nature on the part of the northern states are all that down easy.' is required to make the conclusion speedy and sure."

JUBILER AT SPRINGFIELD-MR. LINCOLN MAKES A SPEECH .- The citizens of Springfield have had a celebration over the republican triumph. Mr. Lincoln was called out, at his residence, and made the following excellent speech :--

FRIENDS AND FELLOW-CITIZENS.—Please excuse me on this occasion from making a speech. I thank you for the kindness and compliment of your call. I thank you in common with all others who have thought fit by their votes to indorse the republican cause. [Applause.] I rejoice with you in the success which has so far attended that cause. [Applause.] Yet, in all our rejoicing, let us neither express nor cherish any harsh feelings towards any citizen, who, by his vote, has differed with us. [Loud cheers.

Let us at all times remember that all American citizens are brothers of a common country, and should dwell together in the bonds of fraternal feeling. [Immense applause.] Let me again beg you to accept my thanks, and to excuse me from further speaking at this time.

A SPLENDID RUN.-Reymert, who expected to detach enough Norwegian votes from the republicans to elect him, who traveled almost the entire district, promising everystructing the county treasurer not to pay thing to everybody, is beaten by from 12, 000 to 15,000 majority. The Hudson Star, his home organ, now publishes an article congratulating him on the splendid run he has made. It says-"We are astonished at the number of votes our congressional RECKINRIDGE AND BELL.—In 32 coun- candidate received in the late contest."

THE LEGISLATURE,-Mr. Comstock is elected to the assembly in the St. Croix district over Dr. Hoyt. Republican majority on joint ballot, fifty-seven.

U. S. TROOPS AT THE SOUTH .- As some interest attaches at present to the complement of United States soldiers stationed south, we append a correct list of them: At Fort Monroe, Va., eight companies of artillery; at Fayetteville arsenal, N. C., one

company of artillery; at Fort Moultrie, S. C., two companies of artillery; at Augusta, Ga., one company of artillery; Key West, Fla., one company of artillery; Burrancas barracks, near Penascola, Fla. one company of artillery; Baton Rouge, La., one company of artillery; total, about 800 men. There are about 120 United States marines at Norfolk and Penascola. The recruiting stations of Jefferson, Mo., and Louisville have full companies garrisoning them just now.—N. Y. World.

A BLAST FROM THE NORTH.—The mails, yesterday, brought us letters from Superior and Bayfield, on Lake Superior, containing returns and reports from Douglas, Ashland and La Pointe, the three northern counties of our state. Heretofore, they have been decidedly democratic; but now the repub-licans have carried all three counties.— Comstock (rep.) is elected to the assembly from the northwest district, instead of Dr Otis Hoyt (dem.) as first reported -Milwankee Sentinel.

[THEE above are First Class, justly popular, and prompt paying companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but fix equals, and no superiors. They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn-securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railread, bank, and other stocks, which are subject to the fluctuations of the market, and liable, in times of panie, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing partial and one-sided statements of their condition, and without a cash surplus on hand 'sufficient to reinsure their custanding risks, the above named companies always have and keep over and above their applied twice the amount, and in most instances four times, inceded for the reinsurance of all their risks. DAILY GAZETTE.

Interesting from South Carolina. Statement of the Teacher who was sent out of the Pulmetto State, with his passage paid.

To the Editor of the Boston Journal: I noticed in your paper of last evening Freight, an article on my return home from South Carolina. The impression left by it was mainly correct. One or two inaccuracies I might notice. I should prefer, however, if one case out of many is sufficiently interesting to your readers, to give them a more detailed account of the treatment I received. I shall thus answer questions which will be asked me a thousand times once for all, and more correctly than rumor would

I arrived at Blackville, ninety miles from Charleston, at 8 o'clock on Monday evening, Nov. 5. Stepping upon the platform, I was almost immediately surrounded by a group. of young men. Finding that they were a Vigilance Committee, I answered their questions until they asked, What are your political opinions? Are you in favor of Mr. Lincoln's election? My answer was, I beg your pardon, gentlemen, I have nothing to say to you on political matters. They asked me to stop—examined my trunk and a chest containing my library, until late Monday night, and for an hour or two Tues day morning. The examination was conducted with politeness and delicacy. They found little against me-nothing, as they told me-which materially changed their impression. However, I was a northern man—that was sufficient. The chief of the

vigilance committee told me privately that such was the feeling that were it not for several circumstances, "I should not have been let go with a whole akin." However, Trains leave Janusville: they would send me home safe, pay my passage, and keep my books until the money vas refunded.

This feeling, so strong then, gradually changed. A feeling sprung up and gained ground that I should be sent on to my cm ployer. The meeting broke up without being able to agree. I was informed of this by one of the members, who advised me to proceed. I told him no. I'm not going to run away. I was stopped officially, and I must have official notice that I may leave. This I presently received. Thus the storm,

thought, had passed away.
At Barnwell, ten miles distant, I enjoyed the hospitality of the Baptist minister. In the afternoon my employer (from a neigh-While conversing boring town) called. with him I was unexpectedly waited upon by a gentleman who wished my attendance in the village. We proceeded to the court house. I shall not be likely to forget that occasion; many circumstances invested it with interest. It was Barnwell court house, from which, years ago, under memorable circumstances they sent away the venerable Judge Hoar. It was an assembly composed of the most respectable men of the place. There were the educated men, one minister (at least) and the physicians of the town. There were the principal slaveholders, and a large planter of 5,000 acres sat in the chair. The proceedings were parliamentary and courteous throughout. I stood at the table-(a little Massachusetts man, the shortest, I believe, in my class at Harvard) -and interrogatories were put me one by

one. What were my sentiments on slavery, its extension, Mr. Lincoln's election, the higher law, irrepressible conflict, &c., &c. I answered them fairly. When I could reply with effect, I did so; when I could not, I declined to answer. Speeches were made

dragged me into the negro car, (there was no one to say nay,) and persisted in sitting by my side, threatened me with a whipping, paddling and hanging, and who, on my rcfusal to answer his questions, drew his knife to cut off my ear. A pretended friend of-fered me a pistol; told me I should need it before I reached Charleston. Of course, I declined it. At Bambergs, where they hanged a man shortly before, the fellow went out and called the vigilance committe, several of whom entered and seized me, and endeavored by main strength to force me from the car, to hang me. I had good hold, and they couldn't move me, but they tore my coat badly in the struggle. The cars, moreover, were starting; they tried in vain to get them stopped, and were forced to desist. The conductor quietly extended all the protection, as I think, which he thought safe for him to do.

Arriving at Charleston, he procured mean officer, who conducted me to the guard house. It was not safe, the chief of the police told me, to go aboard until the boat was about to start. They congratulated me on my narrow escape. Next day the officer attended me to the boat.

Here ends the story. It is only just to say that in addition to the election and secession excitement, the people have been exasperated by several cases of well poisoning and slave arming. But extreme abolitionists are not the only northern men who have fanned the excitement. The editors of those journals north, who have misrepresented the designs of the republican party have done quite as much, I think, to produce the result. What mischief makers! Even the personelle of the republican candidates has been misrepresented. Why, in South Carolina they really believe that Senator Hamlin, Vice President elect, is a mulaito

If I have not already left the impression, I wish to state that I have the best reasons for saying that my return is owing to no imprudence on my part. I could not change any act done or recall any sentence uttered before the two vigilance committees. I say this for two reasons: 1. In justice to myself; 2. To show that no northern man with northern principles, however prudent and well-intentioned, is wanted in South Caroline to day; I was told that distinctly many Such, Mr. Editor, is a brief but fair ac-

count of my reception in South Carolina and my return home. I have at last reached a state where I can express openly the suppressed joy and satisfaction which I felt on South Carolina ground, on hearing that a new and better era has begun in our his-

#### Relief for Kansas.

A public meeting has been called to meet in this city on Tuesday evening next, to take measures for the relief of the people of Kansas, many of whom are suffering for the want of food and clothing.

It has been ascertained that in consequence of the excessive and long continued drought in that country, about thirty thousand people will need assistance during the coming winter. It is a case that may well incite the active sympathies of our people. Men, women and children, through no fault of their own, are reduced to the necessity of asking for help, or die from famine and cold. They appeal to us for aid, through a state convention which has been held in Kansas. That appeal should be heeded by the men and women of Rock county. We have an abundance and can spare liberally for this cause. Let us respond to this appeal in a manner that shall be worthy of the generous people of Rock county.

It has been suggested, in a proclamation by the governor of Ohio, that collections be every where taken in that state on Thanksgiving day, the 29th of November. We think the suggestion a good one and appropriate to the day, and hope that the people of Kansas will be remembered in all the churches and at all the firesides in this state, also, on that occasion, in a way that shall testify to the sincerity of our sympathy. Money, clothing, boots and shoes, wheat,

flour, beans, pork, &c., are principally needed. What farmer is there who cannot put up one or two bags of wheat, or flour, or some other product, and feel richer and better for the deed? Merchants, Mechanics, Millers, all can give something which they will not miss, but which will help our suffering brethren in Kansas, through the winter which approaches.

Those who are desirous of uniting in the effort for relief, are requested to meet at the Court room in this city on Tuesday evening, or to communicate with the committee which will be appointed at that time to receive and forward whatever may be given for the above purpose.

SHPMENTS ON THE M. & M. R. R. FOR OCTOBER.-The shipments of wheat on the above road for October were 76,320 bushels, and 2,000 barrels of flour; reducing the flour to wheat, it would make 85,000 bushels, in the aggregate. These shipments were from this city.

The ladies of Christ church congregation are requested to meet at their place of worship to morrow (Thursday,) at 2 o'clock P. M. It is hoped that all will be present.

A HEAVY Loss .- We regret to record a very heavy loss to one of our most successful, intelligent and shrewd business men .-E. H. Bennett, we are sorry to state, is the sufferer. He declares that yesterday he lost \$20,000 by the discrediting of Illinois currency. This loss was incurred by his want of a \$50,000 stock of goods to sell for that currency at par. The sympathies of the community are actively excited for him.

THE NORTH HEARD FROM .- Douglas and La Pointe counties have each given Lincoln a majority over Douglas! The vote in Douglas county is 70 for Lincoln, 66 for Douglas, 13 for Breckinridge and 2 for Bell. In La Pointe, Lincoln has 10 majority .-Evidently, the Indians didn't vote this time

Larrabee, the vulgar member of Congress from Wisconsin, is beaten by more than 2,000. Even the Democracy will be glad to hear that this piece of nastiness has been wiped out .- Albany Evening Journal

He is beaten by 5,000 instead of 2,000. Please make a note of it, and credit the good sense of the people of the Third District of Wisconsin.—Madison Journal.

Will the Albany Journal give the Third District all the credit it is entitled to?

A very agricultural writer-Cow-per.

But if the bond fails; if a condition of things arises which makes it no longer the interest of a state to remain in the Union, we must either let it go, or we must destroy the Union, erect a federal despotism in its stead, and by that means conquer the state and compel it as a subjugated province to pay tribute and remain. We defy the acutest philosopher to discover any other result of the doctrine which demands that a state should be conquered to remain in the Union.—Mil. Free Dem., 20th.

Had the above statement been made in relation to our government under the old articles of confederation, no one would have doubted its correctness. It is too late now, however, to discuss the question whether this is a union or a confederation of states. That has been settled long ago, and in many different forms; and there are few persons who doubt the fact that all the states taken together constitute a unionone nation, instead of a confederation of independent nations. The intention of the fathers of the republic is too clearly expressed in the constitution to be misunderstood: "We, the people of the United States, in order to form a more perfect union" etc., "do ordian and establish this constitution for the United States of Ameri-

Admitting the fact, then, that this is a Union, we have only to change the language of the above proposition so as to correspond with this fact, and its absurdity becomes evident. Let us see. "But if the bond fails; if a condition arises which makes it no longer the interest of a part of the Union (a state to remain in the Union,) we (the people of the Union) must either let it go out of the Union (and thus destroy the Union,) or we must destroy the Union by compelling all parts of the Union to remain in the Union."

The fallacy is too plain for comment.-The trouble with the Free Democrat is that it makes no distinction between the sovereign rights of a state acting in the capacity of a state, and the right of a part of the Union to nullify the laws of the Union or sacede from the Union. There is just as much logic in saying that a county has the right to secode from a state, or a town from a county, as for a state to secede from the United States. The Free Democrat ought to know that where nullification and sacession commence, state rights end.

Money Matters .- The seven Illinois banks which were thrown out at Chicago, on Monday, were in no better repute yesterday. Gold was selling, mostly to laborers, who were afraid to keep currency, at 10 per cent. Exchange, says the Tribune, was sold rather more freely by some of the bankers to customers at 5 and 6 per cent. premium. There is no improvement in the New York money market. During the past week Missouri stocks have declined from 754 to 694. Even the N. Y. Central declined 9 per cent., and United States Ioan per cent.

We understand some of our merchants ntend to purchase wheat to send forward instead of exchange.

The Axalomation of Language.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into their own; thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming nonlarized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born."

Hi 'ad 'n'orrible 'sadache this afternoon, hand I stepped into the hapothecaries hand says hi to the man, "Can you hease me of an 'cadache?" "Does it hache 'ard," says?e. MET HEADACHE is the favorite sign by which nature makes known any doviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of discase which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz. Symptomatic and Idiopathic. Symptomatic headache is exceedingly common and is the precursor of a great variety of diseases; among which are Apoplexy. Youk, Rheumanism and all febrile diseases. In its nervous form it is sympthetic of diseases of the stamach constituting sitch headache, of hepatic disease constituting bitions headache, of worms, constipation and other disorders of the bowds, as well as renal and uterine affections. Diseases of the heart are very frequently attended with headaches; Anasmia and phethera are also affections which frequently occasion headache. Idiopathic bendache is also very common, being usually distinguished by the mame of nervous headache, sometimes coming on sandenly in a start of apparently sound health and prestrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper—in most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking vaniting; under this class may also be named Nawalgia.

But the treatment of either class of headache the Cephalle Fills have been found a sure and safe romedy, relieving the most acute pains in a few minutes, and by its subtle power cradicating the diseases of which headache is the supering index.

### Constipation or Costiveness.

No one of the "many ills flesh is heir to" is so prevalent; so little understood, and so much neglected as costiveness. Often originating in carelessness, oresdentary habits; it is regarded as a slight disorder of too little consequence to excite anxioty, while in reulity it is the precursor and companion of many of the most fath and dangorous diseases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumadism, Foal Breath, Piles and others of like nature, while a long train of fright-ind diseases such as Maligaant Fevers, Abcosess, Bysentary, Diarriman, Dyspepsia, Apoplexy, Epilepsy, Parelysis, Hysteric, Hypechondrissis, Richancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Constipation, but take on an independent axistence unless the cause is cradicated in an early stage. From all these considerations it follows that the disorder should receive inmediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the compliants, as their timely use will expet the insiduous approaches of disease and destroy this dangerous foe to human life.

### A Real Blessing.

Physician.—Well, Mrs. Jones, how is your headache?
Mrs. Jones.—Gone! Doctor, all gono! the pill you sent
cured has in Just twenty minutes, and I wish you would
sond more so that I can have them handy.
Physician.—You can get them at any Druggiets.—
Call for Cephulic Pills, I flud they never fail, and I recommend them in all cases of headache.
Mrs. Jones.—I shall send for a box directly, and shall
tell all my suffering friends, for they are a real blessing.

Twenty Millions of Dollars Saver.—Mr. Spalding has sold two follions of bottles of his celebrated Prepared Glue, and it is estimated that each bottle saves at least to dollars worth of broken furniture, thus making an aggregate of twenty millions of dollars reclaimed from total loss by this valuable invention. Having made his give a household word, he now proposes to do the world still greater service by caving all the nolling heads with his Cophalic Pills, and If they are as good as his glue, headache will soon vanish away like snow in July.

REP Over Excrement, and the mental care and anxiety inclides to close attention to business or study, are among the numerous causes of nervous headachs. The disordered state of mind and body incident to this distressing complaint is a fattal blow to all energy and ambition. Sufferers by this disorder can always obtain speedy relief from these distressing attacks, by using sman of the Caubulic Pills whenever the symptoms appears of the Caubulic Pills whenever the symptoms as speedy relief from these discressing attacks, by using one of the Cephalio Pills whenever the symptoms appear. It quiets the overtasked brain, and soothes the strated and jarring nerves, and relaxes the tension of the stomech which always accompanies and aggravates the disordered condition of the brain.

Pact Worth Knowing.—Spalding's Cophalic Pills ar a certain cure for Sick Headache, Billons Hoadache Nervous Headache, Costiveness and General Debilty.

Great Discovery.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Rox, the Cophalic Pili for relief of headache, and the use of Quintine for the prevention of favors, either of which is a sure specific, whose benefits will be experiented by suffering humanity long after their discoverers are forgotten.

App Did you ever have the sick headache? Do you remember the throbbing temples, the fevered brow, the leathing and disputs at the eight of food. How tobully unfit you were for plensure, conversation or study.—One of the Cephalic Pills would have relieved you from all the stuffering which you then experienced. For this and other purposes you should always have a box of them on hand to use as occasion requires.

Condition of Wisconsin Banks.

The Madison Argus of yesterday says "The condition of our banks is of course the subject of very constant and grave com- term of court. ment. We understand that in pursuance to the provisions of our banking law the bill was taken up in committee of the Bank Comptroller called on the banks the 15th inst., to make good their several supreme court decision, after whichamounts caused by the depreciation. Certainly Missonri is as sound on that question as any state in the Union. No alarm should be felt on that account. The Chicago Tribune says: " Most anxiety has been felt in regard to Missouri bonds. but we are assured by a gentleman who has the means to know, that three-fourths of the money is already in New York to meet the January interest, and the balance is already provided for and will be there in ample time to maintain the honor of the state." Let Them Down Easy.

The fiery spirits of the south have been able, by twenty years of gasconade, to per suade a portion of the southern people that a small minority in those states can dissolve the Union. They have, in a moment of passion, acted upon this hypothesis, and have committed themselves before the world to a course which they begin to see is suicidal. They have too much pride to back out directly, but foreseeing that it must be done, they want us at the north to let them down as easily as possible, as may be seen by the following from the Evening Post. It will require a large amount of good nature on the part of the northern people to do this, but it will probably be the best course, pro-

up a disturbance again. The Post savs: "A friend who lived many years in a slave state south of Virginia, who once owned a plantation and negroes there, and whose children were all born there, said to us as tified to leave.
we were writing this article: "I know the South well. I have been a citizen of the South and a slaveholder, and am sure that if nothing is done to increase their irritation while they are chafing under defeat, this written to a distinguished friend of mine in that part of the country, whose name I must not give, to inquire what, in his opinion, will be the end of all this. His answer was, 'It will end as all such things at the M. A. Northrop reported in favor of al. South have ended; but you must let us down easy.' Patience and good nature on the part of the northern states are all that is required to make the conclusion speedy and sure."

The conservative sentiment of the south appears to be disgusted at the sectional wrangle, and concedes that the northern states should promptly convene their Legis latures and repeal their unfriendly laws, and urge a convention of all the states to meet a prompt and united effort to preserve the Union and country from bankruatey, anarchy and roid.

Official Paper of the City. Condition of Wisconsin Banks.

The Madison Argus of yesterday says: \* The condition of our banks is of course the subject of very constant and grave com- term of court. ment. We understand that in pursuance to the provisions of our banking law the Bank Comptroller called on the banks the loth inst., to make good their several supreme court decision, after whichamounts caused by the depreciation. They did so, many returning currency. By law, he cannot make a similar call till sixty days have elapsed. By that time, things will have assumed a definite shape, and the legislature will be in session, so that some effective method, if possible, may be devised to sustain the credit of our currency."

The circulation of Wisconsin banks on the 1st of August was \$4,135,218. Since that time no material change has taken place. The security for this is as follows: Wisconsin 6's......\$ 100,000 Racine & Mis. R. R. 8's....... 27,000 Mil. & Wat. R. R. 8's..... Minnesota 8's..... North Carolina 6's..... 456,000 Ohio 6's..... 231,000 Tennessee 6's 691,000 Virginia 6's 179,000 do 5's 9,600
California 7's 213,500
25,000 Georgia 6's.....do 7's..... 20,000 Illinois 6's...... 515,400 Iowa 7's.... Indiana 5's..... Kentucky 6's..... Louisana 5's..... do 6's...... 140.000 Missouri 6's...... 1,503,000 do in Banks...... 382,009 Total......\$5,018,376

It is not at all probable that any of the Southern States whose bonds are held by our banks will enter into the scheme of secession. Certainly Missouri is as sound on that question as any state in the Union. No alarm should be felt on that account. The Chicago Tribune says: "Most anxiety has been felt in regard to Missouri bonds, but we are assured by a gentleman who has the means to know, that three-fourths of the January interest, and the balance is already provided for and will be there in ample time to maintain the honor of the state."

Before the sixty days have elapsed when and fuel. Adopted. the bank comptroller can again call upon our Wisconsin banks to make good further report in favor of canceling certain certifidepreciation, the panic will have subsided. The brokers of Wall street and Chicago M. A. Northrup presented a resolution in will then have made their speculation out favor of allowing Guy Carter the balance of the fears of the community, and com- due him from the county for wood purchasmerce will regain its wonted channels. It | ed for the county poor farm by the superinis preposterous to suppose that a panic can | tendent. Adopted. exist twenty days in Wisconsin where our Mr. Earle presented the following resolumoney matters are so easy. We have sold tion: or have for sale twenty million of dollars worth of produce. heard a rumor prejudicial to their soundness. It is annoying to see our money, which is as safe as any ir. the union, quoted at 15 per cent. discount in New York, while unsecured banks of North Carolina, Ohio, Kentucky and Indiana are quoted at 11 (6 5. We all know that that is a humbug, and we may guess from what we do know of our own money matters, and the false quotations of it abroad, that it may be the same with what brokers are pleased to call uncorrent money of other localities. We believe the whole panic has been got up by interested speculators in money and stocks; and as long as the people will consent to become their dupes, so long we shall have

We again advise our friends every where to keep cool, and refuse all sacrifice upon their currency. Remember that every dollar presented to our Wisconsin banks during the panic of 1857 was redeemed, while millions were lost in consequence of the failure of eastern banks.

panics in the money market.

A FALSE STANDARD .- The Madison Patriot cites the recent fall of stocks in New York, as illustrating "the value of the almighty nigger, and the benefit of Lincoln's election." It continues-"It is estimated that the country has already lost, in depreciated stocks, no less than twenty-five mil-lions of dollars. The republicans, no doubt, have accomplished a great strike for "freedom," but as a question of dollars and cents (sense) it is questionable whether the country is any better off—especially if one half of the Union quit us in a huff."

The idea that the rise or fall of stocks in Wall street is any indication of the increase or loss of the real wealth of the year. country is fit only for electioneering clap trap. The loss or gain of \$100,000 at a fare bank is just as good evidence of the Adopted. loss or gain of property as the rise or fall of stocks in the New York stock board involving a change of that amount of money. The stock brokers of Wall street are noth. ing more or less than a legalised band of to \$39,700. gamblers. Their position enables them to inflict a greater degree of injury than the men who bet on the turn of a card; and were it not that they sometimes affect other holders of stock who may be compelled to sell while the price is down, the losses of the operators would be entitled to no more consideration or sympathy than the unlucky venturers on the "tiger." It is all nonsense to talk about the present flurry in the stock market permanently affecting the industrial ties officially reported at the secretary of

Let Them Down Easy.

The fiery spirits of the south have been this state, which will be cleaned out in a | This resolution was seconded by Mr. able, by twenty years of gasconade, to per few weeks; and Wisconsin banks being West, and after considerable debate its fursound and all paying spaces or sestions or uncurrent money is about as sound, and all paying specie or eastern ex- ther consideration was deferred until the a small minority in those states can dissolve the Union. They have, in a moment of The committee on justices and constables passion, acted upon this hypothesis, and have committed themselves before the world to a course which they begin to see is suicidal. They have too much pride to back out directly, but foreseeing that it must be done, promptly. Up to this moment we have not Brown, a lunatic from this county, to the they want us at the north to let them down as easily as possible, as may be seen by the following from the Evening Post. It will require a large amount of good nature on the part of the northern people to do this, but it will probably be the best course, provided South Carolina will agree not to kick

up a disturbance again. The Post says: "A friend who lived many years in a slave state south of Virginia, who once owned a plantation and negroes there, and whose children were all born there, said to us as we were writing this article: "I know the South well. I have been a citizen of the South and a slaveholder, and am sure that if nothing is done to increase their irritation while they are chafing under defeat, this excitement will soon subside. I have just written to a distinguished friend of mine in that part of the country, whose name I must not give, to inquire what, in his opinion, will be the end of all this. His answer was, 'It will end as all such things at the South have ended; but you must let us down easy.' Patience and good nature on the part of the northern states are all that is required to make the conclusion speedy and sure."

JUBILEE AT SPRINGFIELD-MR. LINCOLN Makes a Speech.—The citizens of Spring. field have had a celebration over the republican triumph. Mr. Lincoln was called out, at his residence, and made the following excellent speech :-

FRIENDS AND FELLOW-CITIZENS.-Please excuse me on this occasion from making a speech. I thank you for the kindness and compliment of your call. I thank you in common with all others who have thought fit by their votes to indorse the republican cause. [Applause.] I rejoice with you in the success which has so far attended that cause. [Applause.] Yet, in all our rejoicing, let us neither express nor cherish any harsh feelings towards any citizen, who, by his vote, has differed with us. [Loud

Let us at all times remember that all American citizens are brothers of a common country, and should dwell together in the honds of fraternal feeling. [Immense applause.] Let me again beg you to accept my thanks, and to excuse me from further speaking at this time.

A SPLENDID RUN.-Reymert, who expected to detach enough Norwegian votes from the republicans to elect him, who traveled almost the entire district, promising everything to everybody, is beaten by from 12, 000 to 15,000 majority. The Hudson Star, his home organ, now publishes an article congratulating him on the splendid run he has made. It says-"We are astonished candidate received in the late contest."

### Illinois Surremoy.

We will take at par Illinois currency on subscription for the Daily or Weekly Gazette and Free Press.

### New Subscribers.

Will our friends throughout the county make an effort to induce every republican to subscribe for the Weekly Gazette and Free Press. Those wishing an eastern paper can many times obtain it from a friend by sending a copy of some western paper to ...em. When this can be done send the Gazette, and thus keep your money at home, and aid us in our circulation.

### Relief for Kansas.

A public meeting has been called to meet in this city on Tuesday evening next, to take measures for the relief of the people of Kansas, many of whom are suffering for the want of food and clothing.

It has been ascertained that in cousequence of the excessive and long continued drought in that country, about thirty thousand people will need assistance during the coming winter. It is a case that may well incite the active sympathies of our people. Men, women and children, through no fault of their own, are reduced to the necessity of asking for help, or die from famine and cold. They appeal to us for aid, through a state convention which has been held in Kansas. That appeal should be heeded by the men and women of Rock county. We have an abundance and can spare liberally for this cause. Let us respond to this appeal in a manner that shall be worthy of the generous people of Rock county.

It has been suggested, in a proclamation by the governor of Ohio, that collections be every where taken in that state on Thanksgiving day, the 29th of November. We think the suggestion a good one and appropriate to the day, and hope that the people of Kansas will be remembered in all the churches and at all the firesides in this state. also, on that occasion, in a way that shall testify to the sincerity of our sympathy.

Money, clothing, boots and shoes, wheat, flour, beans, pork, &c., are principally needed. What farmer is there who cannot put up one or two bags of wheat, or flour, or some other product, and feel richer and better for the deed? Merchants, Mechanics, Millers, all can give something which they will not miss, but which will help our suffering brethren in Kansas, through the winter which approaches. Those who are desirous of uniting in the

effort for relief, are requested to meet at the Court room in this city on Tuesday evening, or to communicate with the committee which will be appointed at that time to receive and forward whatever may be given for the above purpose.

The Ladies of Trinity church will provide an oyster supper in the vacant store of the Hyatt House, formerly occupied by Merinst., the proceeds of which are to be appropriated towards furnishing the chancel of the church. Admittance 10 cents. Oysters 25 cents. Supper at 8 o'clock.

## Ladles' Fostival.

The ladies of the Congregational Church of this city will hold a festival at Lappin's Hall, on Thursday evening, Nov. 22d; the proceeds to be appropriated for the purchase | tled market hereafter. of new books for the Sabbath School library.

The entertainment will be enlivened by the Bower City Band, and by select Vocal Music, under the charge of Mr. D. D. Wil-

A HEAVY LOSS .-- We regret to record a very heavy loss to one of our most success. ful, intelligent and shrewd business men,-E. H. Bennett, we are sorry to state, is the sufferer. He declares that yesterday he lost \$20,000 by the discrediting of Illinois currency. This loss was incurred by his want of a \$50,000 stock of goods to sell for that currency at par. The sympathies of the community are actively excited for him.

THE NORTH HEARD FROM .- Douglas and La Pointe counties have each given Lincoln a majority over Douglas! The vote in Douglas county is 70 for Lincoln, 66 for Douglas, 13 for Breckinridge and 2 for Bell. In La Pointe, Lincoln has 10 majority .--Evidently, the Indians didn't vote this time.

Larrabee, the vulgar member of Congress from Wisconsin, is beaten by more than 2,000. Even the Democracy will be glad to hear that this piece of nastiness has

been wiped out.-Albany Evening Journal He is beaten by 5,000 instead of 2,000. Please make a note of it, and credit the good All goods sold by me are warranted to give satisfaction on each box.

But if the hond fails; if a condition of things arises which makes it no longer the interest of a state to remain in the Union, A meeting of the citizens of Rock county the Union, erect a federal despotism in its stead, and by that means conquer the state and compel it as a subjugated province to pay tribute and remain. We defy the acutest philosopher to discover any other result of the doctrine which demands that a state should be conquered to remain in the Union .- Mil. Free Dem., 20th.

Had the above statement been made in relation to our government under the old articles of confederation, no one would have doubted its correctness. It is too late now, however, to discuss the question whether this is a union or a confederation of states. That has been settled long ago, and in many different forms; and there are few persons who doubt the fact that all the states taken together constitute a unionone nation, instead of a confederation of independent nations. The intention of the fathers of the republic is too clearly expressed in the constitution to be misunderstood: "We, the people of the United States, in order to form a more perfect union" etc., "do ordian and establish this constitution for the United States of Ameri-

Admitting the fact, then, that this is a Union, we have only to change the language of the above proposition so as to correspond with this fact, and its absurdity becomes evident. Let us see. "But if the bond fails; if a condition arises which makes it no longer the interest of a part of the Union (a state to remain in the Union,) we (the people of the Union) must either let it go out of the Union (and thus destroy the Union,) or we must destroy the Union by compelling all parts of the Union to remain in the Union."

The fallacy is too plain for comment.-The trouble with the Free Democrat is that it makes no distinction between the sovereign rights of a state acting in the capacity of a state, and the right of a part of the Union to nullify the laws of the Union or sacede from the Union. There is just as much logic in saying that a county has the right to secede from a state, or a town from a county, as for a state to secede from the United States. The Free Democrat ought to know that where nullification and secussion commence, state rights end.

banks which were thrown out at Chicago, on Monday, were in no better repute yesterday. Gold was selling, mostly to laborers, who were afraid to keep currency, at 10 per cent. Exchange, says the Tribune, was sold rather more freely by some of the bankers to customers at 5 and 6 per cent. premium. There is no improvement in the New York money market. During the past week Missouri stocks have declined from 751 to 691. Even the N. Y. Central declined 9 per cent., and United States loan 2 per cent.

We understand some of our merchants intend to purchase wheat to send forward instead of exchange.

Janesville Wholesale Market. Reported for the Janesville Gazette. BUMP & GRAY. GRAIN AND PRODUCE DEALERS.

JANESVILLE, November 21, 1860. The wheat market was more active to-day than for several days past, receipts being fair and buyers more disposed to operate. There was about 4000 bushels in the market, which sold at 70@78c for good to choice milling spring, and 65@68c for fair to good dry shipping; damp and grown wheat sold all the way from 55 to 60c. The market closed with good demand for all win & Co., on Wednesday evening, the 21st grades of spring, at our full quotations. Receipts of nate were light, not enough being in to supply the home demand, consequently prices were 1@2c better; sales of 150 bushels in different lots, at 17@18c. No change in other grains. Dressed hogs came forward quite freely for so early in the season. We note sales of 30 head at 5,50@6,00 per 100 pounds. The latter figure was paid for two very choice, averaging 415 pounds each. The general range is from 5,25@5,75 for light to choice heavy lots. Butter and eggs are in demand at our full quotations. .MISCELLANEOUS. THE ANALGAMATION OF LABOUAGES.—There is a grow-The Antigamation of Languages, ... There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into their own; thus the word Cephalic, which is from the Greek, signifying "far the head," is now becoming popularized in connection with Mr. Spalding's great Headacha remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the nisanor born."

'ardly Realized. Hi 'ad 'n 'orrible 'eadache this afternoon, hand I stepped into the hapothecaries hand says hi to the man, "Can you hease me of an 'eadache!" "Does it hache 'ard," says 'e. "Hexceedingly," says hi, hand upon that 'a gave me a Caphalic Pill, hand 'pon me 'onor it cured me so quick that I 'ardly realized I 'ad 'ad an 'eadache.

HEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be negliced. Headaches may be classified under two names, viz: Bymptomatic and Idiopathic. Bymptomatic headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, thout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting sich headache, of hépatic disease constituting bitness headache, of hepatic disease constituting bitness headache, as well as renal and uterine affections. Diseases of the heart are very frequently attended with headaches; Ansemia and plothors are also affections which frequently occasion headache, Idiopathic headache is also very common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a state of apparently sound leadth and prostrating at once the mental and physical enegles, and in other instances it comes on slowly, heralded by depression of spirits or accroity of temper.—In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking vomiting: under this class may also be named Neurolain. In most metabore the pain is in the front of the head, over one or both eyes, and sometimes provoking conting; under this class may also be named Neuralgia. For the treatment of either class of headache the Cephalic Pills have been found a sure and and remedy, relieving the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which headache is the unerring index.

Balboer.—Missus wants you to send her a lox of Cephalic Glae, no, a bottle of prepared Pills,—but I'm thinking that's not just it neither; but perhaps ye'll be afther knowing what is is. Ye see she's nigh dead and gone with the sick headache, and wants some more of that same as relaived her before.

Druggist.—You must mean Spalding's Cephalic Pills.

Bridget.—Och I sure now and you've sed it, here's the quarter and give me the pills and dont be all day about it aither.

From all these considerations it follows that the theorier should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaints as their timely use will expel the insiduous approaches of disease and destroy this dangerous foe to human life.

### A Real Blessing.

Physician.—Well, Mrs. Jones, how is your headache?

Mrs. Jones.—Round Doctor, all gone! the pill you sent cured me in just twenty adjustes, and I wish you would send more so that I can have them handy. Physician.—You can get them at any Druggists.— Call for Cophalle Pills, I find they never fail, and I reommond them in all cases of headaches Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a real blessing.

Twenty Millions of Dollars Saves—Mr. Spaiding has sold two infilions of bottles of his celebrated Propared Glue, and it is estimated that each bottle saves at least ten dollars worth of broken farniture, thus making an aggregate of twenty millions of dollars reclaimed from total loss by this valuable invention. Having made his glue a household word, he now proposes to do the world still greater service by curing all the aching heads with his Caphalic Pills, and if they are as good as his glue, headache will som vanish away like snow in July.

4.7 Gver Excitement, and the mental care and antiety incident to close attention to business or and, are among the manerous causes of nervous headache. The disardered state of mind and body incident to this distressing complaint is a fatal blow to all energy and am bitton. Sufferers by this disorder can always obtain speedy relief from these distressing attacks, by using one of the Cephalic Fills whenever the symptoms appear. It quites the overtasked brain, and soothes the strained and jarring nerves, and relayes the tension of the stomech which always accompanies and aggravates the disordered condition of the brain.

Fact Worth Knowing.—Spalding's Cephalic Pills are a certain ome for Sick Headachs, Billous Hoadachs, Nervous Headachs, Costiveness and General Debility.

GREAT Discovery —Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox, the Cephalic Pill for relief of headache, and the use of Quinine for the prevention of fevers, either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoverers are forgotten.

Did you over have the sick headache? Do you remember the throbbing temples, the ferered brow, the loathing and disgust at the sight of food. How totally undit you were for pleasure, conversation or study.—One of the Cephalic Pills would have relieved you from all the suffering which you then experienced. For this and other purposes you should always have a box of them on hand to use as occasion requires.

A meeting of the citizens of Rock county is requested at the Court Room,

TUESDAY EVENING, Nov. 27th, to organize a system of relief for the suffering people of Kansas.

subscription for the Daily or Weekly Gazette and Free Press.

### New Subscribers.

Will our friends throughout the county make an effort to induce every republican to subscribe for the Weekly Gazette and Free Press. Those wishing an eastern paper can many times obtain it from a friend by sending a copy of some western paper to them. When this can be done send the Gazette, and thus keep your money at home, and aid us in our circulation.

### Relief for Kansas.

A public meeting has been called to meet in this city on Tuesday evening next, to take measures for the relief of the people of Kansas, many of whom are suffering for the want of food and clothing.

It has been ascertained that in conse quence of the excessive and long continued drought in that country, about thirty thousand people will need assistance during the coming winter. It is a case that may well incite the active sympathies of our people. Men, women and children, through no fault of their own, are reduced to the necessity of asking for help, or die from famine and cold. They appeal to us for aid, through a state convention which has been held in Kansas. That appeal should be heeded by the men and women of Rock county. We have an abundance and can spare liberally for this cause. Let us respond to this appeal in a manner that shall be worthy of the generous people of Rock county.

It has been suggested, in a proclamation by the governor of Ohio, that collections be every where taken in that state on Thanksgiving day, the 29th of November. We think the suggestion a good one and appropriate to the day, and hope that the people of Kansas will be remembered in all the churches and at all the firesides in this state, also, on that occasion, in a way that shall testify to the sincerity of our sympathy.

Money, clothing, boots and shoes, wheat, flour, beans, pork, &c., are principally needed. What farmer is there who cannot put up one or two bags of wheat, or flour, or some other product, and feel richer and better for the deed? Merchants, Mechanics, Millers, all can give something which they will not miss, but which will help our suffering brethren in Kansas, through the winter which approaches.

Those who are desirous of uniting in the effort for relief, are requested to meet at the Court room in this city on Tuesday evening, or to communicate with the committee which will be appointed at that time to receive and forward whatever may be given for the above purpose.

## Oyster Supper.

The Ladies of Trinity church will provide an oyster supper in the vacant store of the Hyatt House, formerly occupied by Mer- to cho. The market closed with good demand for all win & Co., on Wednesday evening, the 21st grades of spring, at our full quotations. Receipts of inst., the proceeds of which are to be appropriated towards furnishing the chancel of 150 bushels in different lots, at 17@18c. No change in the church. Admittance 10 cents. Oys- other grains. Dressed hogs came forward quite freely ters 25 cents. Supper at 8 o'clock.

The ladies of the Congregational Church of this city will hold a festival at Lappin's Hall, on Thursday evening, Nov. 22d; the proceeds to be appropriated for the purchase of new books for the Sabbath School library. The entertainment will be enlivened by

the Bower City Band, and by select Vocal Music, under the charge of Mr. D. D. Wil-

Oysters, Ice Cream, &c., will be liberally provided.

An invitation to citizens generally is ex-

tended. Admittance to the Hall, one dime.

Supments on the M. & M. R. R. for OCTOBER.—The shipments of wheat on the above road for October were 76,320 bushels, and 2,000 barrels of flour; reducing the flour to wheat, it would make 85,000. bushels, in the aggregate. These shipments were from this city.

A HEAVY LOSS .- We regret to record a very heavy loss to one of our most successful, intelligent and shrewd business men.-E. H. Bennett, we are sorry to state, is the sufferer. He declares that yesterday he lost \$20,000 by the discrediting of Illinois currency. This loss was incurred by his want of a \$50,000 stock of goods to sell for that currency at par. The sympathies of the community are actively excited for him.

THE NORTH HEARD FROM .- Douglas and La Pointe counties have each given Lincoln a majority over Douglas! The vote in Douglas county is 70 for Lincoln, 66 for Douglas, 13 for Breckinridge and 2 for Bell.

Tea and Table Spoons, Sugar and Salt
In La Pointe, Lincoln has 10 majority.

Shells, Cream Ladles, Butter and
Fruit Knives, Napkin Rings, Evidently, the Indians didn't vote this time.

Larrabee, the vulgar member of Congress from Wisconsin, is beaten by more than 2,000. Even the Democracy will be glad to hear that this piece of nastiness has been wiped out.—Albany Evening Journal He is besten by 5,000 instead of 2,000. Please make a note of it, and credit the good sense of the people of the Third District of Wisconsin.—Madison Journal.

Will the Albany Journal give the Third

District all the credit it is entitled to? A very agricultural writer-Cow-per.

But if the bond fails; if a condition of hings arises which makes it no longer the interest of a state to remain in the Union, we must either let it go, or we must destroy the Union, erect a federal despotism in its stead, and by that means conquer the state and compel it as a subjugated province to pay tribute and remain. We defy the acut-

est philosopher to discover any other result. of the doctrine which demands that a state should be conquered to remain in the Union .- Mil. Free Dem., 20th.

Had the above statement been made in relation to our government under the old articles of confederation, no one would have doubted its correctness. It is too late now, however, to discuss the question whether this is a union or a confederation of states. That has been settled long ago, and in We will take at par Illinois currency on | many different forms; and there are few persons who doubt the fact that all the states taken together constitute a unionone nation, instead of a confederation of independent nations. The intention of the fathers of the republic is too clearly expressed in the constitution to be misunderstood: "We, the people of the United States, in order to form a more perfect uni-

> Admitting the fact, then, that this is a Union, we have only to change the language of the above proposition so as to correspond with this fact, and its absurdity becomes evident. Let us see. "But if the bond fails; if a condition arises which makes it no longer the interest of a part of the Union (a state to remain in the Union,) we (the people of the Union) must either let it go out of the Union (and thus destroy the Union,) or we must destroy the Union by compelling all parts of the Union to remain in the Union."

The fallney is too plain for comment.-The trouble with the Free Democrat is that it makes no distinction between the sovereign rights of a state acting in the capacity of a state, and the right of a part of the Union to nullify the laws of the Union or secede from the Union. There is just as much logic in saying that a county has the right to secede from a state, or a town from a county, as for a state to secede from the United States. The Free Democrat ought to know that where nullification and secession commence, state rights end.

MONEY MATTERS .- The seven Illinois banks which were thrown out at Chicago, on Monday, were in no better repute yesterday. Gold was selling, mostly to laborers, who were afraid to keep currency, at 10 per cent. Exchange, says the Tribune, was sold rather more freely by some of the bankers to customers at 5 and 6 per cent. premium. There is no improvement in the New York money market. During the past week Missouri stocks have declined from 751 to 691. Even the N. Y. Central declined 9 per cent., and United States loan

We understand some of our merchants intend to purchase wheat to send forward instead of exchange.

THE AMALGAMATION OF LANGUAGES.—There is a grow-THE ANALGAMATION OF LANGUAGES.—There is a growing tendency in this age to apprepriate the most expresive words of other languages, and after a while to incorporate them into their own; thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spaiding's great Headache remedy, but it will soon be need in a more general way, and the word Cephalic will become as common as electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born."

### 'ardly Realized.

Hi 'ad 'n 'orrible 'cadache this afternoon, hand I stepped into the hapothecaries hand says hi to the man, "Can you hease me of an 'eadache!" "Does it hache 'ard," says 'e. "flexceedingly," says hi, hand upon that 'e gave me a Cephalle Pill, hand 'pon me 'onor' it cured me so quick that I 'ardly realized I 'ad 'ad an 'eadache.

HEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications zhould never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic lead sche is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, dout, Rheumatism; and all febrile diseases. Is its nervous form it is sympathetic of diseases of the stomach constituting soil: headache, of worms, constitution and other disorders of the bowels, as well as retail and uterino affections. Diseases of the heart are very frequently attended with headaches; America and plethors are also affections which frequently coession headache. Idlopathic headache is also very common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical engles, and in other instances it comes on slowly, herealed by depression of spirits or accribity of temper—In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking voniting; under this class may also be named Neuralgia. For the treatment of either class of headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute palns in a few minutes, and by its subtle power eradicating the diseases of which headache is the unerting index. on" etc., "do ordian and establish this constitution for the United States of Ameri-

Druggist.—You must mean Spalding's Cephalic Pills.

Bridgit.—Och i sure now and you've sed it, here's the quarter and give me the pills and don't be all day about it aither.

### Constipation or Costiveness.

No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as costiveness. Often originating in cardessness, or scelentary habits; it is regarded as a slight disorder of too little consequence to excir anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Piles and others of like nature, while a long train of fright ful diseases such as Malignant Fevers, Alcesses, Dysentary, Diarrheas, Dyspejsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Molancholy and Insanity, first indicate their presence in the system by this atarning symptom. Not unfrequently the diseases named originate in Constipation, but toke on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a lox of Cephalic Pilis on the first appearance of the complaint, as their timely use will expet the insiduous approaches of disease and destroy this dangerous foe to human life.

### A Real Blessing.

Physician.—Well, Mrs. Jones. how is your headache!

Mrs. Jones.—Gone! Dictor, all gone! the Jill you sent cured me in just twenty minutes, and I wish you would send more so that I can have them hands.

Physician.—You can got them at any bruggists.—Call for Cephalio Pills, I find they never fail, and I recommend them in all cases of headache.

Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a cott blessing.

TWENTY MILLIONS OF DOLLARS SAVED.—Mr. Spalding has sold two mullions of bottles of his colebrated Prepared Glue, and it is estimated that each bottle saves at least on dollars worth of broken farmiture, thus making an aggregate of twenty millions of dollars reclaimed from total less by this valuable invention. Having made his glue a household word, he now proposes to do the world still greater service by curing all the aching heads with his Cephulle Fills, and if they are as good as his glue, headsche will soon vanish away like snow and examine his stock before purchasing elsewhere.

FACT WORTH KNOWING.—Spalding's Cephalic Pills are a certain cure for Sick Headache, Bilious Headache, Nervous Headache, Costiveness and General Debility.

GREAT DISCOVERT —Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox. the Copicile PHI for reliaf of headache, and the use of Quilline for the prevention of fevers, either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoverges are foresten. ers are forgotten.

Em Did you ever have the sick headache? Do you remember the throbbing temples, the fevered brow, the leathing and disgust at the sight of food. How totally furth you were for pleasure, conversation or study.—One of the Cephalle Pills would have relieved you from all the suffering which you then experienced. For this and other purposes you should always have a box of them on hand to use as occasion requires.

By the use of these pills the periodic attacks of Norous or Sick Headacke may be prevented; and if taken at Ithe commencement of an attack immediate relie. rom pain and sickness will be obtained. They seldom fail in removing Naures and Headache to which females are so subject.

They not gently upon the bowels,-removing Chatice-For Literary Men, Students, delicate females, and all persons of sedentary habits, they are valuable as a Lexative, improving the appetile, giving tone and rigor to the digestive organs, and restoring the natural elasticity

and strength of the whole system.

The OEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and sufering from headache, whether originating in the nerv ous system or from a deranged state of the stomach. They are entirely vegetable in their composition, and may be taken at all times with perfect fafety without making any change of diet, and the absence of any disagreeable taste renders it easy to administer them to chil-
